Need Samples?

Have an existing or new formula? Need samples? Let our expert labs team bring it to life. Our service begins with a formula review call to learning more about your product and Brand.

After you securely upload your formula into our client portal, our Lab team will assess and source your ingredients to run your batch.

Each Sample batch consists of (4) 2oz bottles or jars (12+ bottles/jars upgrade is available), branded in Bellus sample packing. (Full branded samples upgrade available).

This engagement starts at \$650, and only takes 2-3 weeks.

Contract Manufacturing

Have a successful product? Current manufacturer, lacking quality and fast lead times? We're not surprised, so many labs today either out source, lack quality control measures and have lost that personal touch.

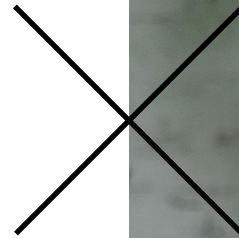

With Bellus, you are assigned a brand coach, she or he will work with you to build your new manufacturing strategy to ensure the highest margins and fastest turnaround time.

With our data driven approach we can analyze your sales, and sourcing trends to optimize your brand and drive a larger ROI.

Confidentiality & Security

We understand the value of intellectual property and the impact it has on your business. This is why we have developed a password protected, in house batch and sourcing system to ensure your data stays safe.

Each Bellus team member is under a strict Non disclosure and competes to give your and true piece of mind.
