Rights Transfer Documentation

Up to 14 business days

***Note, each milestone begins once the previous milestone is completed

CHANGES | DELAYS | OUT OF SCOPE REQUESTS

Any changes to the project will shift the timeline by a minimum of 2 weeks. Bellus is here to support you during this journey, if you have a special request for something that is outside the scope of your project, will we do our best to assess and provide a quote.

Delays are most common when custom, non stock ingredients are requested for your formula. This happens because we will need to establish a relationship with the new supplier, this could take a few days or in some cases a few weeks. We will do our best to provide timely completion.
